

## RINGING ON HOLT ISLAND ON 15<sup>th</sup> June 2021

The weather was hot, still and sunny once the early morning cloud had burnt off.

The catch was small but interesting with many young birds including Tree Creeper, Reed Warbler, Chiffchaff and this week Dunnocks. Food appears to be more available for the birds now with the hot weather. A number of the adult Reed Warblers were ringed two years ago, as was the Sedge Warbler, the first to be caught this year.

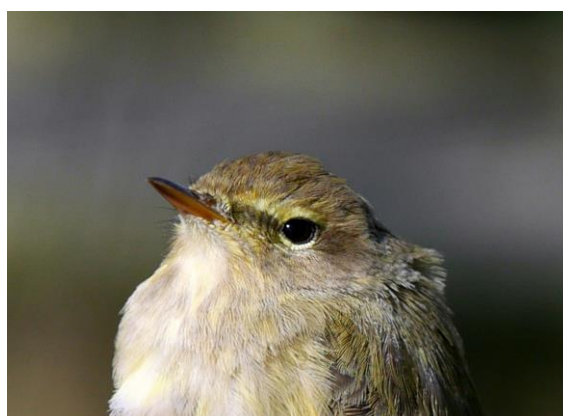

Cuckoos were heard on the Island and a lot of Swallow and Martins.

Red Admirals were seen in a couple of places and many Dragonflies and Damselflies including both male and female Scarce Chasers, Blue tailed Damselflies and Common Damselflies but the most numerous was the banded Demoiselle.

Species	New Adults	New Juveniles	Re-trap Adults	Total
Dunnock	1	4	1	6
Sedge Warbler			1	1
Reed Warbler	2	1	6	9
Garden Warbler			1	1
Blackcap	1			1
